

SIMPLY BUILT TO LAST

2026 PREVIEW

SIMPLY BUILT TO LAST

At Vision, it's our purpose to craft simplicity that endures. That means clean, intuitive designs anyone can use and durability you can trust, day after day for years. When equipment simply works and support is there when you need it, you can focus on running your facility with confidence.

About Vision Fitness

Vision Fitness is Johnson Health Tech's full-commercial brand for value-conscious operators who want reliable, simple equipment that lasts. Our value goes beyond the purchase price, with quality engineering, proven platforms and testing beyond industry durability standards. Backed by a global leader with more than 50 years in the fitness industry, Vision customers can rely on a powerful local service network that supports customer needs not just today, but well into the future.

A VISION FOR THE FUTURE

Vision Fitness is entering its next phase of growth, with more than 60 new products launching throughout the coming year. Nearly three decades after Vision began in 1996, we're expanding our lineup and reach with a clear focus on full-commercial durability, uncomplicated designs and support you can count on long after installation.

This catalog is a preview of what is available now, plus what is coming next.

BRAND PILLARS

Reliability

Our equipment is consistently tested above industry standards to ensure years of hassle-free performance in demanding environments.

Simplicity

Everything we design is uncomplicated and durable, making products easy to use and easy to own.

Value

As a brand of Johnson Health Tech, Vision customers can expect proven full-commercial equipment that outlasts expectations and a service network that supports your facility long-term.

FIND YOUR BEST FIT

Introducing two new cardio series that give you more ways to match your goals, your budget and the people you serve.

SUMMIT SERIES

Summit delivers a solid, intuitive workout that stands up to the demands of your most-dedicated cardio enthusiasts. Choose Summit for cardio solutions that work hard, stay simple and outlast anything next to them.

VISTA SERIES

Now everyone can get moving with Vista, a budget-friendly, full-commercial cardio series that's built to feel welcoming from the first step. Choose Vista for cardio that's reliable, affordable and accessible to everyone.

DLED CONSOLE

A Sleeker, Smoother LED Experience

Our DLED Console delivers sleek design, bright feedback and simple connectivity, giving your fitness facility an intuitive solution that will keep everyone engaged in their fitness journey.

ENT CONSOLE

Immersive Entertainment at Their Fingertips

Our ENT Console delivers immersive touchscreen workouts, seamless connectivity and a modern design, helping facilities elevate engagement, simplify tracking and keep exercisers motivated through every workout.

SUMMIT AND VISTA CARDIO | COMING SOON

SUMMIT TREADMILL

- 152 x 55.4 cm / 60" x 22" running area
- 4.2 hp AC dynamic response drive system motor
- 0 - 15% incline
- 0.8 - 22 km/h / 0.5 - 13.8 mph (220V) speed range or 0.8 - 19.3 km/h / 0.5 - 12 mph (100-120V)
- 182 kg / 400 lbs. max weight capacity
- 215 x 91 x 165 cm / 85" x 36" x 65" assembled dimensions

SUMMIT STAIRCLIMBER

- 27.3 x 45.9 x 19.8 cm / 11" x 18" x 8" step dimensions
- 25 cm / 9.8" step-on height
- 25 levels resistance
- 141.8 x 82.4 x 207 cm / 55.8" x 32.4" x 81.5" assembled dimensions

SUMMIT ASCENT TRAINER

- 15% - 37% power incline
- 52 - 57.5 cm / 20"- 23" stride length
- 21.6 cm / 8.5" step-on height
- 182 kg / 400 lbs. max weight capacity
- 182 x 84 x 171 cm / 71.6" x 33" x 67" assembled dimensions

SUMMIT SUSPENSION ELLIPTICAL

- 51.3 cm / 20" stride length
- 24 cm / 9.5" step-on height
- 182 kg / 400 lbs. max weight capacity
- 167 x 77 x 168.5 cm / 65.7" x 30.3" x 66.3" assembled dimensions

SUMMIT RECUMBENT BIKE

- 182 kg / 400 lbs. max weight capacity
- 149 x 64 x 143.7 cm / 58.6" x 25.2" x 56.5" assembled dimensions

SUMMIT UPRIGHT BIKE

- 182 kg / 400 lbs. max weight capacity
- 100 x 75 x 152 cm / 43" x 29.5" x 60" assembled dimensions

VISTA TREADMILL

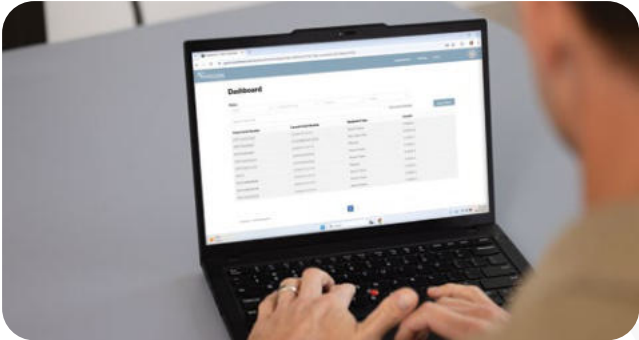

- Optional extra-long handrail
- 148.5 x 55.4 cm / 60" x 22" running area
- BLDC Motor
- 0 - 15% incline
- 0.8 - 19.3 kph / 0.5 - 12 mph speed range
- 182 kg / 400 lbs. max weight capacity
- 215 x 154 x 91 cm / 84.6" x 60.6" x 35.8" assembled dimensions
- Additional Vista cardio products to follow

MAKE THE MOST OUT OF YOUR VISION

Maximize your return on investment with our Digital Solutions — intuitive tools that simplify workout tracking, optimize equipment performance and elevate experiences to keep your fitness community coming back for more.

Vision Digital Solutions connects seamlessly with the new Summit and Vista cardio equipment via WiFi connectivity.

VISION ASSET MANAGEMENT SYSTEM

Maximize Uptime. Minimize Management.

Streamline maintenance for WiFi connected equipment with the Vision Asset Management System. Our intuitive, real-time platform minimizes time spent troubleshooting equipment, so you can manage less and accomplish more.

VISION FITNESS APP

Workout Tracking, Simplified

Simplify user workout tracking with the Vision Fitness App. Users can track every step of their cardio journey with effortless Bluetooth and one-tap NFC connectivity, and with how-to videos and manual logging for strength, training has never been simpler.

LED CONSOLE

If a simplified exercise experience is best for the people you serve, look for versions of our cardio equipment featuring our LED Console. Intuitive navigation makes starting workouts easy, and a bright white LED display offers clear feedback to keep users on track for their goals.

ENTERTAINMENT CONSOLE

Make your fitness center a highlight of your offering with exercise that entertains. Our Entertainment Console will bring people in and keep them coming back with all their favorite entertainment apps, plus exclusive HD destination footage, HIIT programs, optional live TV and more. Users can even mirror their own devices to stream whatever moves them.

T600 | T600E TREADMILL

- 152 x 55.4 cm / 60" x 22" running area
- 4.2 hp AC dynamic response drive system
- 15% incline
- 0.8–22 km/h / 0.5–13.8 mph (220 V) or 0.8–19.3 km/h / 0.5–12 mph (100–120 V) speed range
- 182 kg / 400 lbs. max weight capacity
- 215 x 91 x 165 cm / 85" x 36" x 65" assembled dimensions

S70 | S700E ASCENT TRAINER

- 15%–37% power incline
- 51–58 cm / 20"–23" variable stride length
- 21.6 cm / 8.5" step-on height
- 182 kg / 400 lbs. max weight capacity
- 191 x 89 x 173 cm / 75" x 35" x 68" assembled dimensions

S60 | S600E SUSPENSION ELLIPTICAL

- 53.4 cm / 21" stride length
- 23 cm / 9" step-on height
- 182 kg / 400 lbs. max weight capacity
- 186 x 75 x 164 cm / 74" x 29.5" x 64.5" assembled dimensions

R60 | R600E RECURBENT BIKE

- 161.9 x 72.5 x 138.3 cm / 63.7" x 28.5" x 54.4" assembled dimensions
- 74.5 kg / 164 lbs. product weight
- 182 kg / 400 lbs. max weight capacity

U60 | U600E UPRIGHT BIKE

- 104 x 65 x 144 cm / 41" x 25.6" x 56.7" assembled dimensions
- 57 kg / 125 lbs. product weight
- 182 kg / 400 lbs. max weight capacity

CYCLES & FUNCTIONAL TRAINER

IC700
INDOOR CYCLE

- Optional LCD console
- 127 x 62 x 108 cm / 50" x 24.4" x 42.5" assembled dimensions
- 58 kg / 127.6 lbs. product weight
- 159 kg / 350 lbs. max weight capacity

AB700
AIR BIKE

- LCD console that clearly displays RPM, distance, calories, time and heart rate when used with ANT+ or 5 KHz heart rate monitors
- 128 x 71 x 131 cm / 50.5" x 28" x 51.7" assembled dimensions
- 70 kg / 154.3 lbs. product weight
- 150 kg / 330 lbs. max weight capacity

VST600-FT
FUNCTIONAL TRAINER

- 155 x 106 x 219 cm / 61"x 41.7" x 86.2" assembled dimensions
- 429 kg / 945 lbs. product weight
- 190 kg / 418.8 lbs. (95 kg / 209.4 lbs. per side) weight stack

A man with dreadlocks, wearing a grey tank top, stands in a gym with large windows. He is looking towards the camera with a slight smile. In the background, there are various gym equipment including treadmills and weight machines.

INVEST IN LASTING STRENGTH

Complete your fitness offering by adding essential strength training equipment. Our uncomplicated designs are easy for anyone to use, while our streamlined aesthetic brings a touch of comfortable, modern style to your facility.

KEYSTONE SELECTORIZED

MAKE A STRONG SELECTION

Choose from two selectorized strength lines for the best fit your facility. Each one offers intuitive operation, minimal adjustments and instructional QR codes to help users get started fast. Available in space-saving duals or single stations, both lines use durable components tested well beyond industry standards.

KEYSTONE SELECTORIZED

A Stronger Selection in Every Way

Offer strength training built for everyone and every space with our Keystone Selectorized Series. It combines dynamic performance, durable design and ergonomic comfort for a stronger selection in every way.

ACCESS SELECTORIZED

Make Simplicity Your Strength

Simplify strength training with our Access Selectorized Series, a durable, budget-friendly choice that even beginners can use with ease. For dependable strength training that's accessible to everyone, make simplicity your strength today.

KEYSTONE SELECTORIZED

FOR LASTING DURABILITY & INCREDIBLE RESULTS

Now you can satisfy the needs of the most dedicated strength training enthusiasts for years to come with our plate-loaded and free weight solutions. Developed to maximize major muscle groups using heavy loads. Refined ergonomics keep even the most intense workouts comfortable, and everything is as easy-to-use as it is virtually maintenance-free.

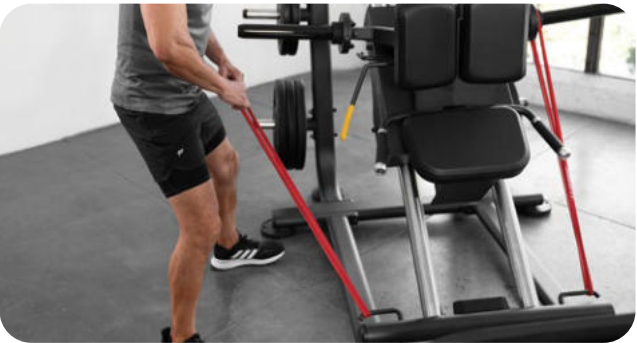

Refined Ergonomics

The molded polyurethane foam pads and contoured touchpoints are sculpted with the human form in mind, making a variety of exercises more effective and comfortable.

Natural Motions

Independent converging motions encourage a natural and effective path of movement for smooth, comfortable reps that put less stress on joints.

Training Variety

Built-in band pegs allow for resistance training that can be done with or without weight plates, offering increased exercise variety and explosive movement options.

Superior Stability

Extensive testing that mimics both normal and extreme use validates the superior stability of our design.
